DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowed.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to fairly teach or suggest a substrate processing device, comprising: a plurality of processing chambers, each of which administers a prescribed process to a substrate therein; a through-chamber which constitutes a vacuum chamber, the plurality of vacuum process chambers are hermetically connected to a perimeter of the through-chamber; a carry system which carries a substrate in sequence, via the through-chamber, to the plurality of vacuum process chambers, the carry system comprises a substrate holder which holds the substrate upright in such a way that a plate surface thereof forms an angle to the horizontal between 45 and 90 degrees; a horizontal movement mechanism which moves the substrate holder via the through-chamber to the plurality of process chambers; and an alignment chamber hermetically connected to the through-chamber; wherein when the substrate holder is in the alignment chamber, the horizontal movement mechanism is able to move the substrate holder such that a substrate being held in the substrate holder is able to move sideways with respect to a longitudinal direction of the plate surface thereof, as well as in the longitudinal direction thereof so as to align the carry system with the through-chamber; **and wherein the alignment chamber is arranged between the through-chamber and one or more load-lock chambers.**

3. While the prior art of record does teach or fairly suggest the majority of the claimed invention, the prior art does not fairly teach or suggest the recitation in bold above along with the requisite motivation for combination. In addition to the prior art of record, no other properly combinable piece of art was located.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
